SUMMARY

Director of Remote Patient Technology and experienced Anime Convention Organizer looking to change career paths and apply my technology, organizational, and event planning skills in the gaming industry. Over ten years of proven record of accomplishments in successfully creating implementing and executing projects and events to further the missions of various organizations. Experienced in broadcasting to Twitch with a growing network of diverse content creators. (Willing to relocate.)

Education

Wellesley College

2013 – 2018

Bachelor of Arts in Media Arts & Sciences

Work Experience

Director of Remote Patient Technology

2018 – Present

Gold Canyon Internal Medicine

- Developed, implemented, and currently manage one of the United States' most robust remote patient monitoring programs to better manage patients with chronic illness during the pandemic.
- Managed and trained office employees and implemented technological solutions to medical records management, marketing, and patient correspondence.

Wellesley HCI Lab HoloLens Research Intern

Summer 2017

Wellesley College Summer Research Program

- Programmed augmented reality (AR) interface design and implemented new application features to assist with research studies on the use of AR as a medium to explore and understand ancient museum artifacts.
- Presented live demonstrations and research findings at global technology conferences.

Volunteer

Director of Featured Guest Liaisons

2020, 2022

Anime Los Angeles

Created and structured the newly added Featured Guest Department tasked with hiring staff, managing the event's featured guest schedules, and providing logistical support to ensure guest events began on time with all equipment needs.

Director of Human Resources

2020

Taiyou Con

Created and structured the newly added Human Resources Department tasked with coordinating staff and volunteer recruitment, organizing staff lodging, training staff on convention policies, and resolving all HR incidents and complaints.
